Dhivyadharshini A

Professional Summary

Dynamic and results-driven software developer with expertise in creating end-to-end web applications using React.js, Spring Boot, and robust database solutions like MySQL and MongoDB. Adept at integrating advanced APIs to enhance functionality and user experience. Experienced in working with Material UI, Axios delivering responsive and interactive designs. Skilled in utilizing tools like Postman, VSCode, and IntelliJ IDEA to optimize the development process. Known for problem-solving, teamwork, and the ability to adapt to challenging project requirements while maintaining high-quality deliverables. Enthusiastic about leveraging technology to create impactful solutions.

Employment History

DEVELOPER, INTERN AT INFOSYS. COIMBATORE, Tamilnadu
Oct. 2024 - Dec. 2024

I developed a web application offering mental health resources during emergencies using React, Spring Boot, and Material UI for a responsive UI. The backend was built with RESTful APIs, incorporating secure authentication via Spring Security. Geolocation features were added using OpenCage API and React Leaflet, and YouTube Data API v3 was integrated for video resources. MySQL and MongoDB were used for structured and unstructured data management, respectively. Axios facilitated API communication, and the backend was deployed with Apache Tomcat, with development streamlined using IntelliJ IDEA and VSCode.

Education

Sri Krishna College of Engineering and Technology , Coimbatore, Tamilnadu
B.E, Engineering
